

The Sisterhood

The Sisterhood has been established by women for women, to raise funds for St Vincent's Hospital. It also aims to provide opportunities for women to make a difference, and support & empower each other.

St Vincent's has enjoyed a long history supported by great women from all walks of life, initiated by its founder Mary Aitkenhead. Mary's calling to serve the poor and her dedication to ensure that everyone should be accepted and receive the attention they require regardless of their race, religion and social standing is an inspiration to all.

The underlying aim of The Sisterhood is to ultimately raise money for the hospital. In doing this, we aim to bring together a network of great women who will inspire and be inspired. Women who will form business partnerships and lifelong friendships. Women who will give freely of their time and in return encourage others to contribute in whatever way they can. Women who can make a difference, however big or small it may be. Women who empower women.

Our next event will be a cocktail party for a "who's who" of Melbourne to celebrate Valentine's Day. Held at The Deck at The Prince St Kilda on Thursday 14 February, 300 guests will gather together to raise money for the Cardiac Research Unit at St Vincent's – and to have a heart on Valentine's Day!

Each event we host will raise money for a different part of the hospital.
